Innovation Cell / Club

The Innovation Cell/Club is formed to promote creativity, problem-solving, and entrepreneurial thinking among students and faculty. This includes the following steps:

1. **Approval and Initiation:**

The institution's management/academic council approves the establishment of the Innovation Cell/Club to foster innovation and startups.

2. **Constitution of the Cell/Club:**

The cell is constituted with a Chairperson (Principal/Director), an Innovation Coordinator, faculty mentors from various departments, industry/startup mentors, and student representatives.

3. **Defining Vision and Objectives:**

Clear objectives are set such as encouraging innovative ideas, interdisciplinary projects, design thinking, prototyping, entrepreneurship, and participation in hackathons and competitions.

4. **Infrastructure and Resources:**

Dedicated space such as an innovation lab/makerspace, access to tools, software, funding support, and mentorship are provided.

5. **Activity Planning and Execution:**

The Innovation Cell organizes ideation workshops, boot camps, hackathons, project exhibitions, startup mentoring sessions, and collaboration with incubators and funding agencies.

6. **Monitoring and Outcomes:**

Progress is reviewed periodically, and outcomes such as prototypes, patents, startups, and competitions are documented.

The formation of an Innovation Cell/Club creates an ecosystem that nurtures creativity, innovation, and entrepreneurship within the institution.
