Internal Quality Assurance Cell (IQAC) Date :

The **Internal Quality Assurance Cell (IQAC)** has been established in the institution as per the guidelines of the **National Assessment and Accreditation Council (NAAC)** to ensure continuous improvement in academic and administrative performance. The IQAC functions as a **central mechanism for quality enhancement**, institutional planning, and monitoring of best practices.

The IQAC plays a proactive role in **developing a quality culture** by formulating policies, strategies, and procedures for academic excellence, effective teaching-learning processes, research promotion, student support, and governance. It regularly conducts **academic and administrative audits**, collects feedback from stakeholders including students, faculty, alumni, and employers, and analyzes the feedback for continuous improvement.

The cell facilitates the **implementation of outcome-based education**, adoption of innovative teaching methods, ICT-enabled learning, and integration of value-added courses such as MOOCs through SWAYAM. It also supports the organization of **faculty development programs, workshops, seminars, and quality initiatives** in collaboration with various institutional committees.

IQAC ensures **documentation and data management** related to NAAC, NIRF, AQAR, and other quality-related submissions. It monitors the functioning of statutory and non-statutory committees and encourages best practices, green initiatives, inclusivity, and student-centric activities.

Through systematic planning, monitoring, and review mechanisms, the IQAC strengthens the institution's commitment to **quality assurance, accountability, transparency, and continuous institutional development**.

Functions of IQAC:

- Development and application of quality benchmarks
- Promotion of learner-centric teaching and learning
- Collection and analysis of stakeholder feedback
- Organization of academic audits and FDPs
- Documentation for NAAC, AQAR, and NIRF
- Promotion of best practices and institutional values
